

Hi!

My name is Zimi.

I am 10.

I live in a village in Zimbabwe.

Aunt because my mum died a few years ago.

I feel sad when
I remember my
mum but Auntie Judith
cares for
me well.

I am happy to live here with my family.

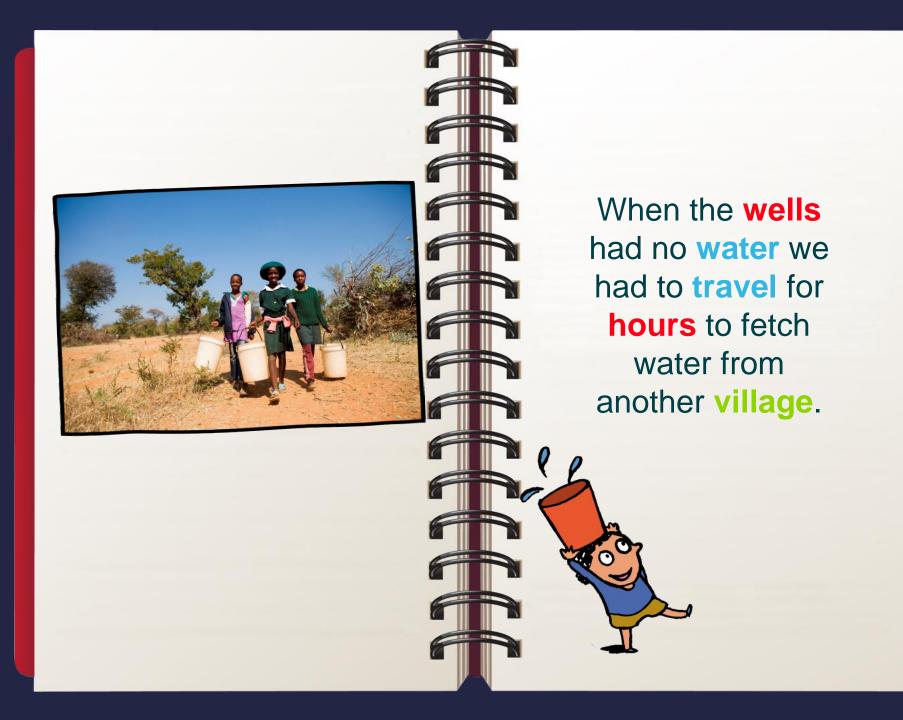

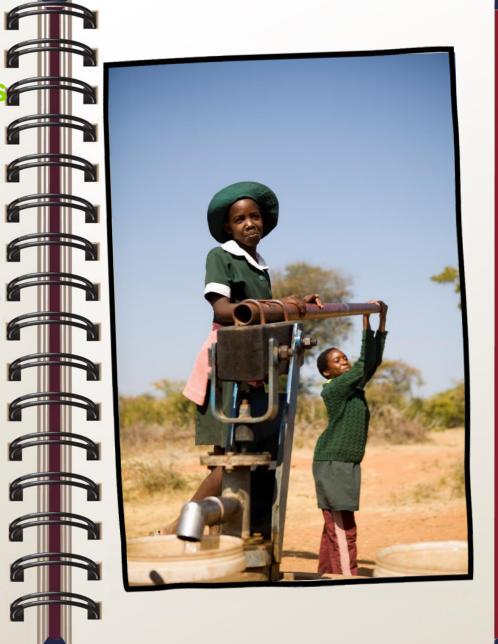

I think water is very precious.

In my village there is little rain.

and
if water isn't
available, how do
I clean my face?

If we don't have
water we can't
wash our hands
after break and
our exercise books
get covered in
sand and dirt.

CAFOD helped to fix the wells.

Now we have clean water.

CAFOD also helped to put toilets in my home and school.

Now the wells
are working, I have more
time to do
things I like.

Before, I would spend most of my spare time fetching water.

Now I have time for

fun stuff.

I think water is very

precious

and important
in life because
without water you cannot
survive.

Living in a place without water is very hard.

It is **good** to **work** with **others** and **share water**.

water is not something that one person should own it is for everybody to share.
